

## COMING TO LOGAN, OHIO

Monday, Mar. 16. From 9 a.m. to 5 p.m. ONE DAY ONLY.

IT WILL PAY YOU TO GO 200 MILES TO SEE

**Dr. C. C. Weist**

The Well Known Columbus Specialist

### Chronic Diseases of Men and Women

Who will visit above named town on dates specified. For more than 10 years Dr. Weist has made regular monthly visits to the principal cities of Ohio. His large practice in this community is largely due to the hearty recommendations of those whom he has treated. Why not consult a well known specialist who has earned an established reputation among you?

#### Get Well, Consult Dr. Weist.

My special methods and years of experience exclude all experimenting or guess work. If you are suffering from any Chronic Disease of Stomach, Liver, Bowels, Rectum, Lungs, Nose, Throat, Bronchial Tubes, Brain, Nerves, Spine, Heart, Blood, Skin, Kidneys, Bladder, Prostate, etc., I will cure you in the shortest possible time without the use of dangerous appliances or injurious drugs.

#### Eyes Examined Free

Have your eyes examined by an experienced Specialist. Dr. Weist treats Diseases of the Eye. Many cases of defective vision are caused by disease. Do not risk your sight with any one who is not able to discover and treat the cause. If glasses are needed, Dr. Weist will fit you satisfactorily.

#### DISEASES OF MEN

Special attention is given to all diseases peculiar to men, especially those suffering from overwork, excessive nervous debility, Varicocele, Rupture, Blood Poison, Eczema, Rheumatism, etc. Consultation Free and Confidential.

#### DISEASES OF WOMEN

My years of experience in the treatment of Special Diseases of Women, and the success in curing hundreds of almost hopeless cases, has given me the full confidence of my patients. My treatment is perfectly harmless and can be used successfully at home. Humiliating methods of examination not required. I will make you feel like a new woman. Consultation Free and Confidential.

Each person applying for treatment should bring from two to four ounces of morning urine, which will receive careful examination. List of 50 questions sent on application. Persons desiring consultation at my Columbus office, should first arrange an appointment by mail. You can see me at my Columbus office on Saturday and Sunday by appointment.

CONSULTATION AND EXAMINATION FREE AND CONFIDENTIAL.

CALL ON ABOVE DATE OR ADDRESS, DR. C. C. WEIST, Dennison Hotel, COLUMBUS, OHIO

## TRIBUTE TO A PRECIOUS LIFE

Mrs. Mary J. Randall Sands was born near New Plymouth, Ohio, July 20, 1833 and peacefully passed away at Logan, Sunday afternoon March 1, 1908, in the seventy-fifth year of her age.

Between these two given dates many most important and interesting events occurred. On January 10, 1854, she was married to Col. A. C. Sands, within a few weeks the young couple united with the M. E. Church at New Plymouth.

In the fall of 1861 Col. Sands was appointed, by President Lincoln, U. S. Marshall for the Southern District of Ohio, and at once the family moved to Cincinnati. In that city, for thirty years Mrs. Sands shared the responsibilities and excitements of her husband's important and influential career.

She transferred her church membership from New Plymouth to the great Trinity M. E. church of Cincinnati, and became one of the most active and useful members of the church. The pew number as recorded in her hymnal is 42. Dr. Earl Cranston, now Bishop Cranston was then her pastor.

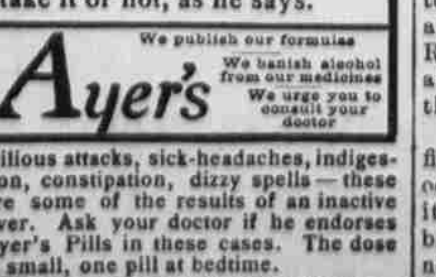

The family had previously, for a short time, attended the Methodist church on the cor. of Finley and Bay Miller streets, when Dr. Starr, now Chaplain of our state prison was pastor. In 1893 the family came to Logan, and on July 14, 1901 Mrs. Sands had her church membership transferred to this place, and here she has lived in the quiet fellowship of her friends in the church and town until death came and sweetly bore her to her long home.

The unostentatious quality of Mrs. Sands noble life was seen in a very sweet way in one of her last acts: On the inside cover page of her hymn book was posted a slip of paper upon which was written in her very recent handwriting the hymn that was just sung—"Asleep in Jesus," and this verse of scripture from John xiv: 2, "I go to prepare a place for you."

In this quiet way she had expressed her wishes for this hour.

## The Family Physician

The best medicines in the world cannot take the place of the family physician. Consult him early when taken ill. If the trouble is with your throat, bronchial tubes, or lungs, ask him about taking Ayer's Cherry Pectoral. Then take it or not, as he says.

Billious attacks, sick-headaches, indigestion, constipation, dizzy spells—these are some of the results of an inactive liver. Ask your doctor if he endorses Ayer's Pills in these cases. The dose is small, one pill at bedtime.

Made by the J. C. Ayer Co., Lowell, Mass.

## THE FAILURE OF THE CLOVER CROP

There are two principal reasons for the failure of the clover crop, which is becoming increasingly frequent in eastern and southern Ohio. The first is exhaustion of the soil supply of lime, the second is a fungus disease of the plant. In old fields lying upon sandstones in which the clover makes a weak and patchy growth, mostly dying out the next winter after seeding and being replaced by sorrel, a deficiency of lime is to be suspected, and farmers who are located upon such lands should write for a bulletin on liming the soil, published by the Ohio Experiment Station, at Wooster.

Where the clover fails on limestone soils disease is probably the cause, and for this no remedy is known except to substitute mammoth or alsike clover for the common red. The alsike has proven a very good substitute at the Ohio Station. Its seed is much smaller than that of red clover, and at present is lower in price. A bushel of alsike will sow nearly as much land as two bushels of red or mammoth. The alsike is not only more resistant to disease, but also endures soil acidity better than the red, and the Ohio Station has adopted the plan of mixing the two varieties. On very acid soils, that have not been limed and which should be sown to clover this spring, it is probable that it would be economy to sow the alsike clover alone; but all such soils should be limed at the earliest practicable date, for the benefit of other crops as well as clover.

OHIO EXPERIMENT STATION, Wooster, Ohio.

## DOCTOR USES D. D. D. IN HIS PRACTICE.

Eminent Physicians Say This Great Liquid Prescription is Certain Cure for Eczema.

Still another Eczema specialist comes forward in enthusiastic praise of D. D. D. Prescription, the wonder external remedy which cures Eczema and other similar diseases like magic. He is Dr. C. B. Holmes of Silver City, Miss., and in summing up his impressions of the startling cures D. D. D. has effected, he says:

"I have been using your D. D. D. for four years with gratifying results. 'Tis as near a specific for Herpes, Eczema, Psoriasis, etc., as is Quinine for Malaria." Dr. Holmes is one of hundreds of physicians who use D. D. D. in their daily practice. The D. D. D. Company allows physicians to use this remedy with the understanding that they tell their patients what it was that cured them when the terrible itch has been wiped out, the skin healed and the raw wound covered over with soft white skin. D. D. D. is not a nasty paste to smear the skin and clothing, but it is a clear liquid. It is advisable to use D. D. D. soap in connection with D. D. D. Prescription.

Is any further proof of the curative powers of D. D. D. Prescription necessary? That remedy is sold at Bort & Co., Druggist, Logan, Ohio. Come in and let us show you convincing proof that D. D. D. will cure your skin disease. Even if you have not decided to use D. D. D. remedy, come in and explain your case anyway.

The one jarring note in the results of the balloting at yesterday's state convention is the nomination of Charles C. Green for the state treasurer. Mr. Green, while under no suspicion whatever as to his personal honesty and integrity is openly charged with gross carelessness in the handling of the state's funds. As a sub-official of the state treasurer's office, now under investigation, he must bear a share of the blame if the present scrutiny of the affairs of the department reveal carelessness or irregularities.

Under such conditions the voters of Ohio will do well to withhold their support of the Green candidacy unless Mr. Green can, before the campaign closes, show a very clean bill of health. And under the circumstances it will have to be very clean, indeed.

It is most unfortunate that the Republican delegates were unable to defeat this one doubtful candidate.

(Cleveland Leader Republican.)

## ORINO Laxative Fruit Syrup

Pleasant to take

The new laxative. Does not gripe or nauseate. Cures stomach and liver troubles and chronic constipation by restoring the natural action of the stomach, liver and bowels. Refuse substitutes. Price 50c. Bort & Company

## ATTY. TOM PRICE GETS NICE FEE

New Lexington's Popular Lawyer Wins Out.

(Lexington Herald.)

The long drawn out legal controversy over the allowance of attorney fees to T. D. Price, for services in the condemnation suits, was finally decided by the Supreme Court, Tuesday.

Judge Hynus allowed fees to Mr. Price, on May 20, 1904, to which the railroad company took exceptions. The matter was carried to Common Pleas court, and Judge Wood reversed the Probate court. The case was then carried to the Circuit court, where the probate court was affirmed, and on Tuesday the Supreme court affirmed the Circuit court. The fees allowed Mr. Price by the decision are as follows, in cases named.

Zanesville, Marietta & Parkersburg Railway company, vs. Felix Hughes and Nettie Hughes, \$1,775.00; same company vs. Star Stoneware Co., \$1,345.00; same company vs. Edgar Taylor and Laura Taylor, \$525.00. The total fees allowed Mr. Price reaches \$3,645.00; and interest from the date of allowance in probate court must be added.

Tom's many friends in Logan are glad to see him get the money. He has worked hard to get on top in his profession, and he is getting there.

## SEED CORN FOR THE SEASON OF 1908

In all probability high grade seed corn is scarcer in Ohio this season than for many years. The principal cause for this is of course the cold, wet growing season of last year, together with the cool, cloudy fall. Had we had a different October and November, even, corn which did mature, or came close to maturity, would now be in very different seed condition. As matters stand great care must needs be exercised or 1908 will find Ohio with one of the poorest corn crops in years.

Very many growers all over Ohio, and particularly in the northern half of the state, will have to buy their seed corn. Such growers are confronted with a serious question, namely: Will this purchase seed prove adapted to the new locality? Will it mature? And a still more serious question confronts all corn growers: Will my corn grow?

The Ohio Experiment Station is offering some suggestions along both lines in Circular 74 which may be had, including instructions and record blanks for conducting germination test by addressing OHIO AGRICULTURAL EXPERIMENT STATION, Wooster, Ohio.

## A Doubtful Nomination.

(Cleveland Leader Republican.)

The one jarring note in the results of the balloting at yesterday's state convention is the nomination of Charles C. Green for the state treasurer. Mr. Green, while under no suspicion whatever as to his personal honesty and integrity is openly charged with gross carelessness in the handling of the state's funds. As a sub-official of the state treasurer's office, now under investigation, he must bear a share of the blame if the present scrutiny of the affairs of the department reveal carelessness or irregularities.

Under such conditions the voters of Ohio will do well to withhold their support of the Green candidacy unless Mr. Green can, before the campaign closes, show a very clean bill of health. And under the circumstances it will have to be very clean, indeed.

It is most unfortunate that the Republican delegates were unable to defeat this one doubtful candidate.

(Cleveland Leader Republican.)

## THE SCENT OF VICTORY

(Pomeroy Democrat.)

The demoralized condition of the Republican party in Ohio, and especially in the Eleventh Congressional District, coupled with the admitted weakness of Hon. Albert Douglas, the prospective candidate, has awakened an interest among democrats throughout the district as to whom Democracy will offer as her candidate for the position. Several names have been suggested, among others those of Hon. M. A. Daugherty, of Lancaster; Judge H. C. Claypool, of Chillicothe and O. W. H. Wright, of Logan; the latter the candidate two years ago, and who came so near defeating Douglas despite the more than ten thousand republican majority for Gen. Grosvenor at the preceding election.

Daugherty, one of the strongest men, not only in the state but in the entire nation, who because of his great ability would take a commanding position from the very day he might enter Congress may as well be eliminated from consideration, it is said, because of his aversion to taking any office, no matter how high. Judge Claypool, a brilliant man, and one of the greatest vote getters in Ohio, and would carry Ross county against Douglas by a big majority is reported as saying that he is too poor to run for Congress, and has his heart set on another term as probate judge of Ross county. This narrows the list down to Judge Wright as the most available candidate, and thousands of democrats in the several counties will say that no matter who are aspirants, the Hocking jurist is the logical candidate anyhow. And there is a good deal of sound reasoning in their argument.

Two years ago, when Judge Wright was a candidate, the state and district went overwhelmingly republican, yet he ran so well that he lacked only 1300 votes of being elected. He ran many thousand ahead of his ticket in the district, and the only thing which prevented his election was the fact that every element in the republican party in Meigs county was enthusiastically supporting Candidate Douglas, with the result that he not only held up with but ran ahead of his ticket in this county. Had he been scratched here as he was on an average in the other six counties, his slender majority of 1300 would have been wiped out entirely and a majority of two or three hundred recorded in favor of Judge Wright.

There is no reason to believe that Douglas will run any better in the other counties this year than he did two years ago, and in the face of the present opposition to him in this county, Meigs will vie with Athens and Hocking when it comes to knifing him on election day.

And then if Hon. A. should be beaten for the nomination it will be no better. In that event his friends throughout the district will do the scratching, and Gen. Grosvenor, Judge Bradbury or whoever the candidate may be, will have to suffer the consequences.

Anyway you look at it, it would seem to be a "cinch" for the democrat nominee, and Judge Wright, the idol of the thousands of miners throughout the district, would seem to be the man to combine the vote of the united democracy and the divided republicans and come under the wire a certain winner.

A severe cold that may develop into pneumonia over night, can be cured quickly by taking Foley's Honey and Tar. It will cure the most obstinate racking cough and strengthen your lungs. The genuine is in a yellow package. Bort & Co.

## RULES OF LENTEN SEASON

Lent, the season of special penitence and preparation for Easter Sunday, began with Ash Wednesday, and continues for forty days commemorative of the forty days fast of Christ.

The Lenten regulations in the Roman Catholic church as read from the pulpits Sunday are as follows:

1st. All the faithful who have completed their twenty-first year and not over the age of sixty, are, unless hindered by hard work or by sickness, bound to observe the fast of Lent.

2nd. All who are obliged to fast, must abstain from the use of meat and take one full meal a day which is usually taken about noon. The Sundays are not fast days.

3rd. The use of meat, by special dispensation, is allowed at any time on Sunday, and at the one principal meal on Mondays, Tuesdays, Thursdays and Saturdays, with the exception of Ember Saturday, March 14, and Holy Saturday, April 18.

4th. Meat and fish must not be eaten at the same meal, not even on the Sundays of Lent.

5th. Eggs, butter, cheese and milk are not allowed at dinner and the evening collation.

6th. A small refreshment, commonly called collation, is allowed in the evening. It should not exceed the fourth part of an ordinary meal or eight ounces.

7th. In the morning, some warm liquid, such as tea, coffee, or thin chocolate, together with a small piece of bread may be taken: no butter or other condiment is allowed.

8th. Lard and suet may be used in preparing permitted food.

9th. When dinner cannot be taken at noon, it is allowed to invert the order, taking the collation earlier in the day, and dinner in the evening.

10th. Persons exempted from fasting, namely, on account of tender, or advanced age, are allowed to eat meat more than once a day on days the use of meat is allowed.

On March 15th, 1895, the Holy Father, Leo XIII, authorized Bishops to dispense working people from the law of abstinence. The dispensation given for a period of only ten years, must be annually announced and granted from year to year. On February 5th, the Holy Father Pius X, renewed and extended this privilege. The Indult supposes that the Bishop will make use of this concession only in behalf of working people living in localities where the law of abstinence cannot be observed without great stress and difficulty. To dispense them without special reason and by a general concession would be both contrary to the spirit of the Indult and unwise. Each Bishop, whilst he is empowered to use his judgment as to the actual necessity of granting the dispensation, is nevertheless individually responsible with regard to the places and the persons to whom he applies the Indult.

I desire, therefore, the pastors, who believe that the working classes of their locality are entitled to the benefit of the Indult, advise me, and I will grant the dispensation to the faithful of these places.

Confessors are empowered to dispense, either in or out of the confessional in individual cases, persons who on account of labor cannot without difficulty observe the law of abstinence.

As a further explanation of the Indult I desire to call attention to the following:

(a) Working men and working women, who have a right to make use of the privilege, may eat meat, every day, except all the Fridays of the year, Ash Wednesday, the days of Holy Week and Christmas eve.

(b) The concession is granted not only to the individuals engaged in hard labor but also to the families; all the members may make use of this privilege. If, however, any of the members are bound to fast, they can use the concession only at one meal.

(c) Any member of the family

on whom the household depends for support,—whether it be the father, son, or daughter, it matters not,—if at liberty to use the Indult, carries the privilege for the entire family.

(e) The faithful, are advised, when they make use of the Indult to perform some work of penance. The Holy See recommends especially abstinence from intoxicating drinks.

According to the general law of the Church all Saturdays of the year as well as the Fridays are days of abstinence. The Holy See granted special permission by which the Bishops can, year by year for a period of ten years, dispense their subjects from abstinence on Saturdays. In virtue of this faculty I hereby grant said dispensation for this diocese from Ash Wednesday, 1908 to Ash Wednesday, 1909.

JAMES J. HARTLEY, Bishop of Columbus.

## LETTER FROM JESS VAN HORN

Tucson, Ariz., March 3, 1908.

Friend C.—I received your card a few days ago and was glad to hear from you and that you were alright. We are all feeling fine and are enjoying the fine climate here, and the winter has been more like summer to us. We have had five or six cloudy or rainy days this winter, and it has only been cold enough to freeze two or three times, and only a little at that, and most every day the sun has shown all day and it just happened that one of the days that the sun did not shine was on the 2nd. of February, "Ground Hog day". On the 13th. of February they had about three-inches of snow here, something unusual for here, and everybody was out with their kodaks, all wanted pictures of it. Some people that live here all their lives think it impossible to be so much snow and cold weather like we have at home. We have had several days that it was 85 in the shade, and you know the sun gets pretty hot now. I have not slept in the house this winter, slept on a screened porch and like it. I think I will have to build one when I come home. I weigh 170 pounds, that is a gain of 26 pounds since I left home, and about 15 pounds more than I ever weighed in my life, and think if I keep on improving as I have I will be alright by June. Mrs. Van Horn has gained about 20 pounds and still gaining, weight 162 pounds. Harry is going to school and getting along fine. He don't have any Asthma at all this winter and he always had it at home in the winter. Carl has just been roughing it around and taking care of the pony, seems well but don't gain any weight. We expect to stay here until school is out, that will be sometime in June, and will go from here to Los Angeles and see the southern part of California, and will try and get home by the 1st. of July, but think we might spend another winter here, it all depends how I am at home awhile.

Have met several people from Ohio here. Joe Patterson and family were here and stayed about six weeks, but they got back home the 20th. of last month. Dick Hart, formerly of Logan, has been here for several years, was out last Saturday, and was telling us he was going to start east next Monday, and would be in Logan for some time, and more than likely you will see him. His wife was going with him also. We still get the DEMOCRAT-SENTINEL and noticed you took the first prize at the Anniversary of the Elks.

My sister Nell and her husband, Charley Weake, have been here with us for about four weeks now and are going to Los Angeles tomorrow for a short stay, and will stop here on their return, and expect to go home some time next month. He is a railroad engineer at Columbus.

We all like it here and never get home-sick. The boys want to stay here but I would rather be in Ohio, only for the climate.

Give all my old friends my best wishes. I remain as ever yours, JESS VAN HORN.
